Major Duties:

This position is located in the Upland Erosion Processes Unit, National Sedimentation Laboratory of Oxford, Mississippi. The mission of the laboratory is to improve the understanding of soil erosion and sediment transport processes, to develop more effective and economically feasible erosion control practices, and to improve erosion prediction methods for better conservation planning. The incumbent provides technical and analytical support to the research mission by providing assistance on experiments that measure erosion from soils and water transport through soils.

At the full performance level, the incumbent will assist the lead scientist in one or more phases of research; collect, assemble and conduct analyses of hydrologic data, and select the best presentation methods for illustrating and summarizing research results; assemble and install complex precision instruments and devices, such as automated water samplers, data loggers, flow gauges and water quality sensors; modify or adapt instruments and equipment to obtain desired performance characteristics; devise experimental techniques; perform field maintenance on instrumentation and make modifications and repairs to experimental equipment.

Additionally, the incumbent will observe significant trends in experimental data and recognize and correct errors, inconsistencies and other deficiencies in data, and will use transducers to save data electronically, as well as utilize computer software (FORTRAN, C++, MATLAB or similar languages) in assembling and tabulating data.

Working Conditions and Other Considerations:

Work requires some physical exertion such as regular and recurring running, walking and bending. Laboratory procedures and use of equipment may require agility or dexterity such as exceptional hand/eye coordination.

Duties performed in laboratory, shop, field or other research settings may involve moderate risks, discomforts and/or inclement weather conditions.

Position requires 10% - 30% of work time in a field setting.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Basic Requirements

GS-07

1 Full year of directly related graduate education OR at least 1 year of equivalent specialized experience (as defined in the KSAs) at the GS-06 level in the Federal service.

GS-08

1.5 years of directly related graduate education OR at least 1 year of equivalent specialized experience (as defined in the KSAs) at the GS-07 level in the Federal service.

GS-09

2 years of directly related graduate education OR at least 1 year of equivalent specialized experience (as defined in the KSAs) at the GS-08 level in the Federal service.

If qualifying all or in part based on your education, please submit a copy of your college transcripts OR a list of college courses with credit hours, dates completed, and grades received. If this information is not provided, your education may not be appropriately evaluated and you may lose consideration for this position. If your qualifications are based in any part on education and you are selected for this position, you will have to provide an official copy of your academic transcripts prior to entering on duty.

Additional Requirements:

Motor Vehicle Driver's License Required

Time-In-Grade Restrictions apply for all candidates considered under Merit Promotion/Alternative Merit Promotion.

Specialized Experience - experience which has equipped you with the following Knowledge, Skills and Abilities - 'KSAs' required to perform the duties of this position:

1. Knowledge of hydrologic processes, methods, procedures and practices in order to adapt, develop or improve techniques and procedures for hydrologic measurements.
2. Skill in the operation and maintenance of complex equipment systems related to hydrologic studies, such as automated water samplers, data loggers, flow gauges and water quality sensors.
3. Skill in the use of personal computer and software packages in the data collection, storage analysis and development of presentations.
4. Ability to obtain, tabulate, analyze and summarize hydrologic data

Other Important Information

Benefits Package:

A Benefits Package is authorized for this position. Additional information about Federal benefits can be obtained at www.usajobs.opm.gov/ei61.htm.

Veteran's Preference:

For further details, call the U.S. Office of Personnel Management (OPM) at 703-724-1850 or TDD 978-461-8404.
